Severe Weather Outlook Wednesday, February 06, 2019

Hazardous Weather

Fire Danger, Big Contrast Today

Weather Forecast Office

Amarillo, TX

Issued Feb 06, 2019 3:50 AM CST

Western Panhandles Warm, Windy, and Dry; East Remains Cold

Elevated Fire Danger Today

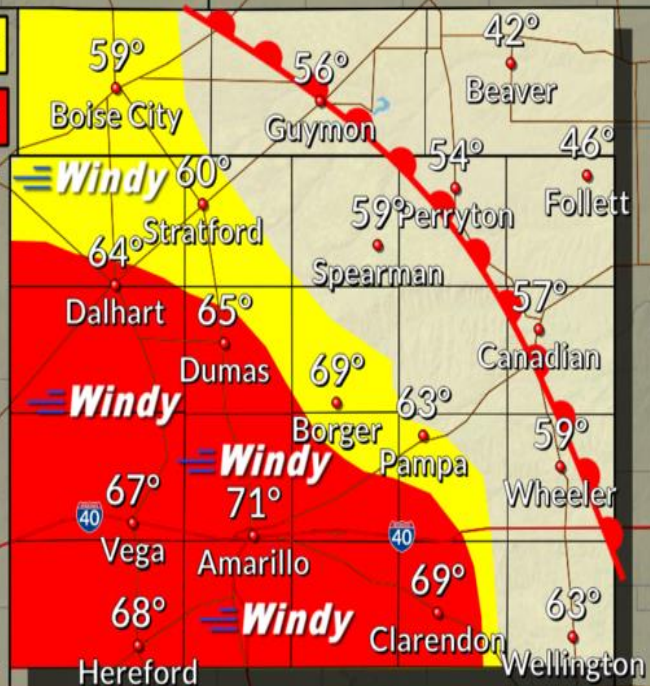

Critical Fire Danger Today

- Another day with a big temperature contrast between the western and eastern Panhandles

- Winds as high as 40 mph will develop in the western Panhandles

- These winds, combined with dry grasses, will lead to critical fire danger conditions in many locations

- Avoid activities involving flames and sparks!

f t NWSAmarillo

weather.gov/ama

Big temperature contrast expected today across the Panhandles. The eastern Panhandles will remain cold again while the western Panhandles will be warm, windy, and dry this afternoon. These conditions will lead to critical fire danger across the western Panhandles. Avoid activities that involve flames and sparks!

Thunderstorms Tonight & Early Thursday

Weather Forecast Office

Fort Worth, TX

Issued February 6, 2019 5:28 AM CT

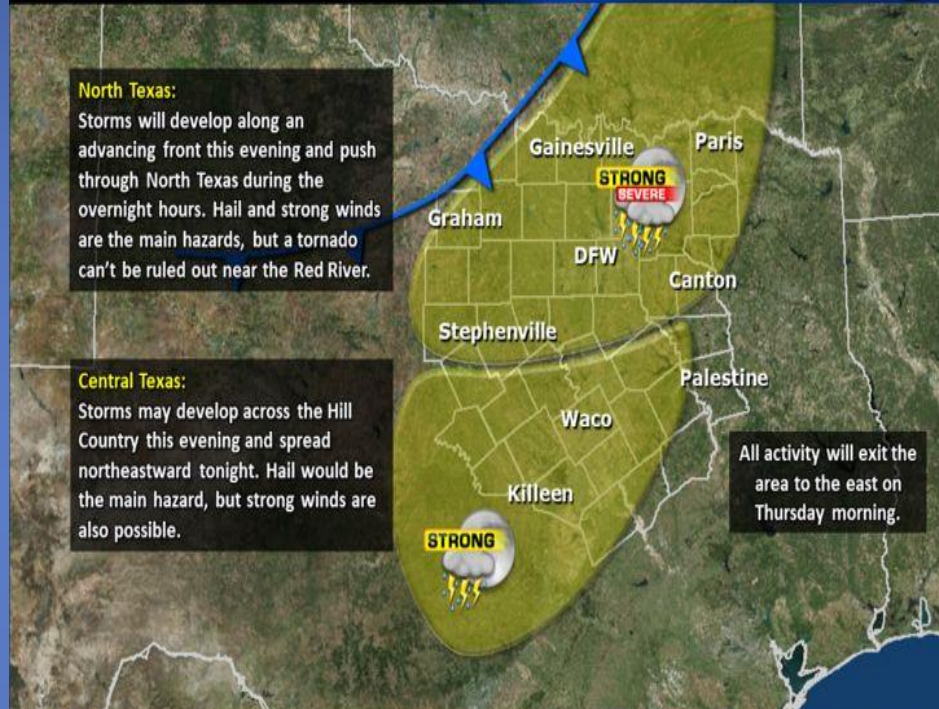

Some strong or marginally severe storms possible

North Texas:

Storms will develop along an advancing front this evening and push through North Texas during the overnight hours. Hail and strong winds are the main hazards, but a tornado can't be ruled out near the Red River.

Central Texas:

Storms may develop across the Hill Country this evening and spread northeastward tonight. Hail would be the main hazard, but strong winds are also possible.

f t NWSFortWorth

weather.gov/fortworth

Thunderstorms will accompany a cold front through the area Wednesday night and early Thursday, some of which may be strong or severe. The greatest severe potential will be across North Texas where storms could produce hail and damaging winds. A tornado cannot be ruled out along the Red River. Additional strong storms may also develop across parts of Central Texas late this evening with primarily a hail threat.
